Frank T. Saunders Persuaded to Accept Bail so as to Avoid Tedious Wait in Kingston-Examples of Artistic Granite Carving-Fixing Slate for Republican Caucus-Arbor Day Observance

Deputy Sheriff Frederick T. zditchell took Prank T. Saunders into custody. Priday morning, in the civil suit brought in a slander case by Lilla May Hall in which the claim for damage is \$1,300. Mr. Saunders declared that he would not go bonds for any one else and was cock-sure that he would not go bonds for him; he would go to jall rather than he under such a compliment to any man. He called in Judge John W. Sweeney as counsel to look out for his interests and was content, under the circumstances, to board in the Kingston jail until the September term of the court, at the expense of the Hall family. Judge Sweeney advised him to furnish bond for trial, but Saunders and Henry L. Burdick was elected his successor.

The committee will be acceptable to the caucus. George B. Utter, secretary of the town committee for four years, resigned, and Henry L. Burdick was elected his successor.

Some of the finest work in granite in the world is shown in monuments at River Bend cemetery. However, the masterpiece is not in the larger monuments or mausoleums, but on the top of a small headstene, marking the reating piace of a Blake child. It is simple in design, representing a bunch of reses, but the carving in granste is even more delicate than is seen in marble. Not only are the rose petris and leaves made to stand out almost free, but the stems, not the directment of granite carving is as fine 2s if it had been cut in a mould and then finished, instead of being cut by hand from the hardest of granite.

Another fine piece of granite work is the bunt of a well known citizen, over minery years of age and who can be seen on the streets daily. The likeness is almost perfect, the resemblance being of photographic strength. All through the cametery there are many fine specimens of the sculptor's art in granite.

The regulations town committee has fixed next Thursday as caucus night, and has taken unto itself the pleasurable teak of siate making. The committee has decided to nominate law E. Crandall and Eugene B. Pendicton, mederators, and John J. Dunn and Lowis Stanton, clerks, for the Pirst and Second vetling districts. They have also decided to re-nominate make James M. Pendleton for treasurer and coffector and Everett E. Whipple for town clerk.

Here the committeemen balked and unanimity ended as they could not agree on the re-election of the present board of councilmen, the school committee and overseer of the poor. Effort was made to drop Councilman William L. Clarke, William Culley and Charles Hall, accused of assaulting Charles Hall, accused of assaulting

Opening Game With Yale.

Today (Saturday) the first game of baseball this season will be played at Industrial park, when the Mystic team will meet the Tale team of New Haven. Manager Tingley has made a good selection of men to start with: Frank Wilcox in the box, McGuire catcher, Sullivan third base, Reegan second base, Kennedy first base, Greenman shortstop, and Wilcox, Jones and Brown in the field. It looks as if Mystic might do some business. The Yale team cones highly recommended. Ray Holmes a Mystic boy, is manager of the team. The diamond has been put in good condition and everything is in readiness to start the season.

New Sermon-Making Method. The latest thing in sermon-making is

Los Angeles, Cal., got together and produced one sermon, and on the next Sunday nine congregations listened to the same sermon, one of the best they had ever heard. Two minds will view a given subject from different angles to the enlargement of their mutual vision, and nine minds well co-ordinated ought to produce a richer sermon than one clergyman would prepare. Whether this union of effort is to be continued we do not know, and whether it would be desirable opens up a question with room enough in it to satisfy any debating society. We suspect that much of the breadening result achieved by the Los Angeles exsult achieved by the Los Angeles ex-periment is accomplished by the Con-necticut Valley Ministers' club, as the importance. There the contact of mind with mind must enlarge the viewpoint and enrich the sermon writing of the members. No live minister in these days will haunt his study to the exclusion of that contact with men and affairs that fits a minister to instruct his scale. Springfeld Resulting Has Had Experience.
